

With International Medical Group, the big world of global business feels a lot more like home

▶ In this new global economy, your employees are frequently traveling outside the United States for business and for pleasure. Yet most domestic insurance companies do not provide health care outside the U.S.

International Medical Group (IMG) specializes in filling this gap in coverage and services. IMG can be the one company

to cover all your employees around the globe or carve out that unique group of employees on an international assignment. IMG's staff is very customer-focused and experienced in serving a variety of groups, such as corporations, students, embassy employees, religious groups, travelers and more.
